

BHAVYA BUTANI

Brains. Backbone. Better Decisions.

I am Bhavya Butani, a BBA (International Business) student at NMIMS CIS, Mumbai, as part of the collaboration program with Kingston University. I am in my second year and will move to Kingston University for my final year in September. I am standing for Student Trustee because this is a position of trust and I take that seriously.

As the Chairperson of the Health and Wellness Club at NMIMS CIS, I have experience in strategy, financial management, and accountability for results. This has helped me develop better financial acumen, analytical skills, and disciplined decision-making.

If elected, I promise to:

- Make all board decisions data-driven and student-centric
- Review significant financial outlays for long-term sustainability
- Encourage frequent assessments of strategic objectives
- Protect the constitutional and legal soundness of the Union

Vote for me for sound judgment, financial prudence, and leadership that defends student trust where it counts the most.
