

CHRISTIANNA- MARIA PATSI

#SKVC | Strengthen Kingston. Vote Christianna.

Hi, I am Christianna and I am running to be your next Kingston Students' Union President. Kingston students deserve real opportunities, stronger support during the cost of living crisis, and a Union that listens and delivers. Through my roles as a Student Ambassador, Academic Mentor, Sports Activities Assistant, and society leader, I have seen both what works and what needs to improve. I am running to open more doors for Kingston students and ensure your voice leads to real change.

Kingston Connected: Expanding Real Career Opportunities

Kingston students are talented and hardworking, but many graduate without the connections or experience employers expect. I will launch Kingston Connected to strengthen links between Kingston students, alumni, and employers across London. This will include: • Cross-university networking events with other London institutions • Faculty-specific employer panels and industry talks • Alumni mentoring and career spotlight sessions • Partnerships with businesses to expand internships and placements By building stronger professional networks, we can open more opportunities for Kingston students and help graduates enter the careers they want.

Kingston Support Hub: Financial Power & Access

The cost of living continues to place pressure on students. Financial support should help students move forward, not just respond to emergencies. I will create a Kingston Support Hub focused on helping students earn more, access support more easily, and reduce financial stress. This will include: • A Student Skills Exchange for paid project work • A Kingston student discount network with local businesses • Expanded food support on campus • Clearer access to bursaries and hardship funds • Better promotion of paid internships and opportunities, accessible to all students including international students Students deserve support that helps them build their future, not just get by.

Open Student Voice: Visible, Direct & Accountable

Students should see their voices lead to real action. I will make the Students' Union more visible, transparent, and accountable so every student feels represented across all campuses. This will include: • Monthly open forums where students can raise issues directly • Clear updates on actions taken so progress is visible • Simpler ways to submit ideas and feedback online • A more visible Students' Union presence across campuses Students deserve a Union that listens, acts, and delivers real change.

Kingston has incredible students, societies, and talent. Now we need a Students' Union that matches that ambition. My campaign focuses on three priorities: expanding career opportunities, supporting students financially, and creating a Union that truly listens and delivers. Together we can strengthen Kingston, raise our ambitions, and build a university students feel proud to represent.
