

# Penrhyn Road Campus Rep

## DEVON DRIVER

Hi everyone, I'm Devon, a third-year Forensic Psychology student, Course Rep, and SGE member. Through these roles and my involvement in university research, I've gained valuable insight into how our university works and what students want to see improved. I'm running for this position because I want to make the Penrhyn Road student experience more supportive, inclusive, and engaging. I will introduce a textbook exchange programme to reduce the financial pressure of books that often cost £50 or more. I also want to organise more cultural festivals that celebrate the diversity of our university and help build a stronger sense of community, as well as skills-share nights where students can support each other and learn together. During exam periods, I will organise de-stress events so students have a space to relax and recharge. Your voice matters, and I'm committed to listening and turning your ideas into real change.
