IAN POZEN

Students voices deserve to shape decisions.

I am a dedicated and forward thinking student passionate about ensuring that every voice at kingston is heard at the highest level of decision making. As a computer Science (Ai) student, i understand the importance of strategy, transparency and accountability and i want to bring that mindset to the Board as your student Trustee. If elected, i will focus on three key priorities: student wellbeing, financial transparency, and future-ready opportunities.
Many students are balancing academic pressure, financial stress, and personal responsibilities. I wilt funds are allocated, and initiatives that directly respond to the cost of living challenges we face.

Secondly, i want to ensure students have access to meaningful career development opportunities. through stronger industry partnerships, employability workshops, or support for entrepreneurial ideas.

Finally, prioritise transparency. Students need to be part of decision making.
