Kingston Hill Campus Rep

MANTAS VASYLIUS

Make Kingston Hill worth the commute.

Kingston Hill is known for Business, Nursing & Midwifery, Education, and Music. Yet most events are led elsewhere.

My goal is simple:

Host events and stands within the campus to grow the community.

I wish to:
-Make more student societies available in Kingston Hill
-Manage events for students to participate in (Concerts, Bake-Sales, DIY sessions, etc!)
-Work with lecturers and the University to engage students better with classwork. for example joining meetings and using the data gathered from course representatives to create real change.
-Making Kingston Hill amenities open during the weekend for students living in the halls (Nightingale Centre & Eat Central)
-Be open about any concurring problems, limitations & concerns by staff.

I want to change Kingston to be more collaborative and social, and I want to start with my campus.
