

ECE (postgraduate) Faculty Rep

YANZHEN DAI

Hello, lovely people! I am running to be your Faculty Rep.

I'm naturally curious and never hesitate to ask questions or seek clarity, which helps me understand situations fully and allows me to share what I learn with others in an easy-to-understand way. As an international student, I know how challenging it is to adjust to a new system, language, and environment. You do not need to go through this alone. Having lived in Kingston and the UK for many years, I experienced both academic life and everyday life here, and you can come to me for either reason. With my background in Graphic Design at KSA and strong connections across departments, I hope to encourage more collaboration through workshops, events, and shared creative opportunities. Your feelings and thoughts matter, and I'll ensure no one feels left out and represent you with care and respect. If you want someone who truly listens and takes action, please vote for me! Let's make this journey easier and more enjoyable together :)
